

MOBILE WEBSITE

Create an engaging experience in mere minutes

You don't need an advanced degree to build a sleek mobile website. Our drag-and-drop platform makes it easy to share any content with your audience via their smartphone — no HTML knowledge required, and no need to involve IT.

What is a mobile website?

Our mobile web platform allows you to create a website that is accessible on any smartphone platform — regardless of form factor — with no downloads necessary.

With our platform you get 24/7 control over your content. You can make changes anytime, on-the-fly, without the involvement of an IT department or any knowledge of HTML.

Add unlimited categories and items at the click of a button. You can group your items within a category and include individual events as items. Or, create standalone items such as membership signup forms, contact forms, or donate buttons.

FEATURES

Create a mobile website in minutes

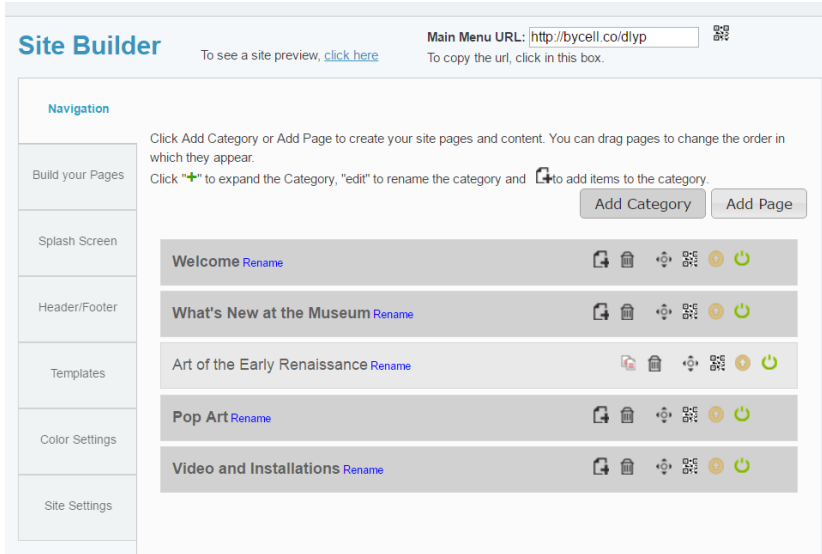

- Connect with your audience
- Enhance visitor experience
- Engage local businesses
- Share mobile content
- Generate more income
- Responsive design

Mobile web platform features

- 24/7 access to admin platform
- Drag-and-drop functionality
- Customizable URL
- Social media integration
- Embed video/audio
- Click-to-call
- Rich site traffic reporting
- Password-protected

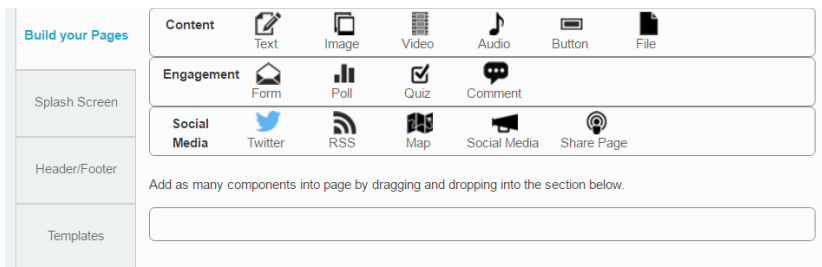

1 Add unlimited categories and items at the click of a button

You can group your items within a category – for instance, create an events category and include individual events as items. Or, create standalone items such as membership signup forms, contact forms, or donate buttons.

2 Add content

To add content to your items, simply drag and drop components to the item editor interface. You can add:

- Text
- Images
- Embedded video and audio
- Quizzes and tests
- Email capture
- Feedback collection
- Games/scavenger hunts
- Signup form
- Maps
- Twitter and Facebook buttons
- Pre- and post-assessment testing
- Links to your donate page
- Voting/polling
- and more!

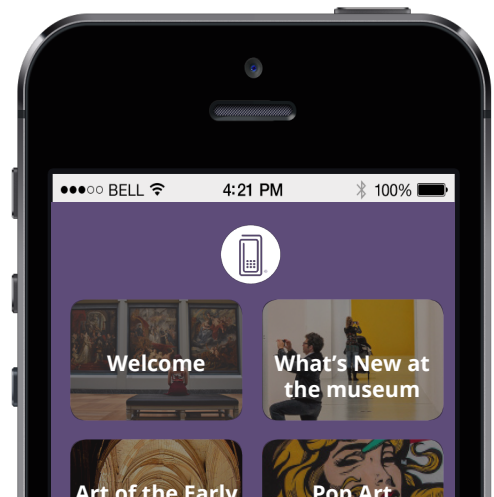

How can you use it?

- Exhibit information
- Post event schedules
- Tradeshow or conference information
- FAQs
- Membership signups
- Promote local businesses
- Floor maps
- Interactive Google map
- Coupons and discounts
- Integrate with social media
- Videos, photos, pdfs, audio clips
- Related links

Reporting/Analytics

- Track overall site traffic and usage
- Rich, detailed reporting
- Individual page views
- Date range reporting
- Geolocation info

3 Preview your finished site

Once you've loaded your content, preview your site, hit publish, and you're done!
